

WHAT TO LOOK FOR WHEN CHOOSING A DRONE OPERATOR

Drones are becoming cheaper and as such many people are purchasing cheap Drones that underperform in both their flying capability and the output quality of work. SkyCam UAV is operating high quality equipment with the DJI Inspire 1 being our primary Drone for aerial work. This drone has a full range of motion gimbal that allows smooth panning and the ability to set a point of interest that remains in shot whilst the drone moves around the object that is being filmed.

SkyCam UAV is a locally owned and operated business located in Jimboomba. We service South East Queensland from Brisbane to Toowoomba, South to Warwick and across to Kingscliff.

OUR SKILLS

The SkyCam UAV team has been working hard testing software, perfecting flying techniques and concentrating on being able to deliver a first class, polished and exceptional product to our clients.

Real Estate Marketing

Online marketing of Real Estate has come a long way in the past few years. Aerial video and virtual tours are the new tools available to vendors and agents. We are skilled in both areas.

Aerial Video & Photography

We shoot video in formats up to 4K. Our craft are able to climb to a maximum altitude of 120 metres which gives a clear and detailed birds eye view of any feature on the ground.

Floor Plan Creation

An additional service we offer to our clients is the creation of a schematic floor-plan from your 3D Virtual Tour. Floorplans will be completed within 24-48 hours.

2D to 3D Conversion

We can convert a floor plan created by us or a Floorplan you supply into an interactive 3D computer generated model. This model is able to be manipulated (walls moved, wall colour changed etc) which is perfect for visualising any remodelling of a property. This model is also able to be viewed in Virtual Reality (VR) through the use of a suitable mobile device and Google Cardboard.

3D Virtual Tours

HOW IT WORKS

1 We scan your property with the matterport Pro Camera,

2 Your complete 3D Space is ready to explore in 24-48 hours

3 Easily use it on your website [Realestate.com.au](https://www.Realestate.com.au), [Domain.com.au](https://www.Domain.com.au), and on social networks

The most realistic, immersive way to experience a property online. What You Get: Every 3D showcase is a completely immersive representation of a space. Matterport's proprietary Dollhouse view provides a total understanding of how a property fits together, while Inside View lets anyone navigate a 3D space as if they were there.
